

CONSERVATION COMMISSION MEETING MINUTES – March 6, 2016

Present: Bob Mosher, Loni Fournier- Conservation Officer

Absent: Scott McIsaac-Chair, Eldon Abbott-Vice Chair, Laurie Freeman, Frank Gaul, Michael Ide, John Morrissey

10:00am site visit at 246 Lazell Street (DEP 034-1245).

The applicants and homeowners, James McGorry and Alicia Secor, and their representative, Brad Holmes, reviewed the plans for their proposed driveway, as well as the alternative plans that they considered.

The Conservation Officer asked the applicants if they considered any plans for their current driveway, should the Conservation Commission approve their plans for the proposed driveway. Ms. Secor indicated that they were inclined to leave their current driveway in place, due to the expense involved in removing it; the negative impacts on their home's front entrance, which connects to their current driveway; and concerns related the accessibility of their proposed driveway in the winter.

The site visit concluded at 10:30am.

Submitted,

Loni Fournier, Conservation Officer

Approved as amended on 3/21/16
