Meeting was called to order at 7:03 PM on July 12, 2016, South Hearing Room, on the third floor at Town Hall.

Minutes for the meeting held on May 23, 2016 were approved. T. Carey abstained from the vote.

G. MacCune began by providing updates on the site selection process. G. MacCune indicated that discussions have started between Town Officials regarding a piece of Town-owned property in North Hingham. G. MacCune mentioned that Town Officials are generally supportive of the new location.

General discussion ensued regarding the location of the new site. Committee Members confirmed the need to evaluate existing and future traffic conditions, as well as existing site conditions and property lines. Committee Members also discussed the existing building on-site and the need for relocation of Town Departments currently occupying the facility.

D. Walter proceeded to discuss the station “prototype” and confirmed that preliminary investigations into the size and configuration of the station and site amenities can now take place.

Committee Members discussed the importance of the site and surrounding area to the Town of Hingham. A. Kearney mentioned the desire for a well-designed fire station that will not be required to adhere to past HDC requirements seen at the current North Fire Station location. Committee Members agreed and suggested designing a station that fits modern departmental needs while still paying homage to the design aesthetics of the other Hingham Fire Stations.

R. Olsson will provide additional site information to Dore & Whittier for review. G. MacCune will continue to discuss site selection with Town Officials.

The next Building Committee meeting was scheduled for July 26, 2016 at 7:30 PM.
